

# Government Capabilities Statement

## About Medix

Medix Government Services applies decades of experience in providing workforce management solutions to the evolving challenges in the Healthcare Industry. Our strategic partnerships in the Public Sector have led to optimizing the care for our Veterans and active military personnel through our comprehensive resource planning and talent acquisition practice that has proven to exceed the rigorous contractual requirements, specifically in the Healthcare, Life Sciences, & Technology Integration & Modernization.

## Core Capabilities

### Workforce Consulting

Our leading industry experts create, build, and scale solutions for programs across healthcare, life sciences, and IT. Medix's internal analytics guide our processes to create leading results.

### PMO Construction

Medix assists in the construction of PMOs for large-scale contract vehicles and projects. Our team provides consultative services, management and resource allocation of key personnel.

### Data Tracking

Medix uses in-house tracking systems to help monitor progress for major projects in sync with contractual requirements. We have scalable work breakdown structures to meet the level of effort required.

### Human Capital Resources

Medix's vast talent acquisition methods and strategies ensure rapid deployment of labor forces. We work to meet contractual requirements and deliver on-time and on-budget.

## Service Areas

### Healthcare

Our team provides comprehensive managed services solutions, strategic consulting, and advanced human capital management to key federal agencies. Medix excels in the ancillary and administrative functions to include clinical specialties and contact centers across CONUS.

### Life Sciences

Medix excels in complete solutions for life sciences and laboratory environments within federal frameworks. Our approach integrates cutting-edge technologies, industry best practices, and strategic workforce optimization to enhance operational efficiency, scientific innovation, and research efficacy in federal life sciences and laboratory sectors.

### Information Technology

We specialize in delivering top-tier and innovative resources for Healthcare Information Technology and Electronic Health Records systems. Our expertise focuses on bridging commercial solutions with government entities, ensuring seamless integration, enhanced data management, and improved patient care. We excel in adapting innovative commercial IT strategies to the unique requirements in the focuses of App Dev, Cloud and Infrastructure Services, Cyber Security, Data Science & Modeling, Business Intelligence, and ERP.

## Medix Overview

- Experienced and dedicated Government Services Program Office with a Compliance, Onboarding, and a Talent Concierge Team who assist in communication and feedback throughout the planning and delivery phases of the contract.
- Experience with rapid deployment projects (48-72 hour turnaround time) for both human capital management and strategic management & planning.
- Positively impacting the lives of citizens, including our veterans, across the United States.
